NEWS ITEMS OF INTEREST.

The plan of a Georgia couple to elope was discovered by the girl's father; but they did not know it until, after riding awhile in the close carriage that was to have conveyed them to a clergyman, they alighted at her own home, and the driver revealed himself as the stern parent in disguise.

A drunkard fled into the woods, near Nashville, Tenn., while wild with delirium tremens, dug a grave, and was found lying in it dead. His wife was made frantic by the sight, and she loudly called upon Heaven to let her die, too. It happened that, on her way home, lightning struck and killed her.

On the night of March 29 a shower of iron fell at Catania, in Sicily. For several hours there was a constant fall of meteoric dust, accompanied by rain, and this dust contained fragments of iron, either in a pure metallic state or in metallic particles surrounded by an oxidized crust. The fragments were of many shapes and sizes, and were readily attracted by the magnet. They only differed in size from a shower of aerolites.

Mrs. Scott-Siddons says: "I have traveled through the United States for eleven years, and know all phases of society. The women here are very much better informed than the English women. American women possess a certain grace and ease, what the French call *chic*, that you will not find even in the highest English society. A servant girl here will dress herself in a graceful, natty way that an English duchess knows nothing about."

Remarkable Old Men.

From the New York Sun.

Jim Ingraham of Wynn's Mill, Henry county, Ga., is said to be a century and a quarter old. He is very infirm, and totally blind, but can still make as good a bark collar as a mule ever looked through, and really seems to enjoy the occupation.

Although Aaron McKenny of Maine had lived over a century, he knocked a man down who had suggested the appointment of a guardian for him, and this assault brought on his first lawsuit. He acted as his own counsel. He died recently, aged 102. He had never tasted liquor or been in a railway train, never sent of received a telegram, and was never out of his native town.

The oldest Mason in the United States has just died after enjoying a century of life. John Best of New Concord, Ohio, was 77 years a Master Mason. He was a member of a commandery at Washington, Pa., became a Mason in 1802 in Ireland, where he took all the degrees up to Knight Templar. He came to this country in 1811 and passed the Circle of Perfection, receiving all the degrees of Cryptic Masonry.

A Fine Thing for the Teeth.

Fragrant SOZODONT is a composition of the purest and choicest ingredients of the Oriental vegetable kindom. Every ingredient is well known to have a beneficial effect on the teeth and gums. Its embalming or anteseptic property and aromatic fragrance makes it a toilet luxury. SOZODONT removes all disagreeable odors from the breath caused by catarrh, bad teeth, etc. It is entirely free from the injurious and acid properties of tooth pastes and powders which destroy the enamel. One bottle will last six months. D & W

EDMUNDS FOR PRESIDENT.

The GAZETTE would be heartily glad to see Senator Edmunds nominated at Chicago. As the time for the holding of the National Convention draws near it becomes more and more probable that neither Grant nor Blaine will be nominated. It is by no means unlikely that a better man than either, one who has not excited partizan hostility during the campaign, will receive the nomination. Edmunds is such a man, and his nomination would, we believe, unite the Republican party. *Harper's Weekly* is strong for him, while opposing both Grant and Blaine. The last number of that able and influential journal has the following concerning him:

As this important discussion now draws to an end, it seems to us evident that no candidate for the Republican nomination has been mentioned who would be so sure of election as Mr. Edmunds. The reason is obvious. It is that no other possible objection could be urged against him than that he is a Republican. He is a man of spotless character, profoundly respected and trusted by men of all parties; of great ability, and of long experience in public affairs; a thoroughly trained statesman; a party leader in the Senate and in his State for many years, who has the undivided confidence of his party associates; a man of strong convictions, of judicial temperament, of forcible character, neither a demagogue nor a "boss"; simple in manner, without conceit or bluster; a genuine American, who has established his remarkable capacity for the public service, and against whom as a candidate no Republican of any view could raise an objection, and for whom the independent vote would be cast most gladly as a man singularly fitted for the Chief Magistracy. The nomination of Mr. Edmunds, who is not especially a "reformer," yet who has entire sympathy with the reform instinct of the party, would at once deprive the Democratic party of every campaign cry which they are hoping to raise against the Republicans, and it would be the earnest that the Republican party proposes to continue the clean course of the present Administration, which we believe to be heartily approved by the conscience and common-sense of the country. If this be true, and it will not be denied, the fact that Mr. Edmunds has not a large number of delegates at the outset is of no importance. That has been true of many successful candidates. That he has not a large personal following, is also of no importance. It is incontestible that Mr. Edmunds would receive every Republican vote that any other candidate would receive; that a large independent and Republican vote, which would not be given to all his more promising competitors would be surely given to him; and the deep dissatisfaction, the personal rivalries and hostilities, which, in case of other nominations, would certainly endanger New York, and perhaps other States, would not be aroused by his candidacy. No sensible man can look at the figures of last year's election in New York and not see how indispensable to Republican success is a wise nomination upon careful consideration of the situation. In that situation it is as plain as any future event of the kind can be that the nomination of Mr. Edmunds would be equivalent to an election. No defenses, no explanations, no deprecations, would be necessary. New York and Ohio would cease to be questionable States, and the Convention would have justified the confidence reposed in it by the Republican party.

EDITORIAL NOTES.

George Eliot, the famous novelist, is now sixty years old. She became a bride for the first time, when she married Mr. Cross the other day, although for a number of years she was known as Mrs. George Henry Lewes, and was to all intents and purposes the wife of that distinguished philosopher. Her late *de facto* husband was encumbered with a lawful wife, from whom he had separated. Therefore his marriage to George Eliot was an impossibility. But, even after the death of his legal wife, no marriage ceremony was performed between Lewes and the novelist.

Over in Nevada City they have a Chinaman in jail, under sentence of death. The fellow is nearly dead with consumption and has betrayed a desire to commit suicide. His trial cost a good deal, but the people don't mind that much, as they look forward to the hanging with great interest. The prisoner is watched day and night that he may not cheat the gallows. The *Herald* ingenuously says: "The authorities of the law are determined that the county shall not have expended so large an amount to prosecute and convict him, without having some satisfaction."

The Modoc *Independent* has been sold. D. C. Slater and N. S. McKinsey succeed W. F. Edwards in its ownership. The late proprietor made a good paper and we hope the new owners may do as well.

The Hanlan-Courtney boat race takes place on the Potomac this afternoon at half past 4 o'clock. Great interest is taken in the contest. Washington is crowded with strangers.

C. F. McGlashan, late editor of the Truckee *Republican*, intends to locate in Santa Cruz.

It is hard to forgive those of whom we are compelled to seek forgiveness. —George Eliot.

THE COMSTOCK.

What is Being Done in the Mines Along The Lode.

VIRGINIA, Nev., May 15.—The following is taken from the statements of the mines to-night: Utah has at work 39 miners and 9 surface men; work unimportant. Con. Virginia raised 1,388 tons of ore, which assays $51 06; California, 707 tons, which assays $38 78. Ophir has 134 miners and 78 surface men at work on the 2,100-foot level, extracting ore; on the 2,300-foot level the joint Mexican crosscut has been extended 12 feet; on the 2,500-foot level the north drift has been extended 30 feet, the joint Mexican crosscut 20 feet, the east drill hole 180 feet, and 114 tons of ore have been extracted and 109 shipped. Assays have not been received. The Union shaft has at work 104 miners and 85 surface men; the Mexican, 53 miners and 4 surface men. The north drift of the 2,500-foot level has been extended 23 feet. Sierra Nevada has 130 men at work, but the developments are unimportant. Union Consolidated has at work 153 miners and 9 surface men; 482 tons of ore have been extracted and 600 milled, which assays $28 43 to the ton. It has shipped bullion to the amount of $24,421,-39

Origin of Gold Nuggets.

NEW YORK, May 18.—Professor Thomas Egleston read a paper last evening before the members of the New York Academy of Sciences, on the origin of gold nuggets and alluvial gold nuggets. He said that all placer deposits were in sands that were alluvial, and are of two kind, shallow and deep. The deep placers of California average 30 to 40 cents per quarter yard. The time would come when the tailings, which are now wasted, would be worked to greater advantage than much of the lighter deposits. In a discussion with J. L. Newberry, President of the Academy, Professor Egleston affirmed the solubility of gold, and stated that the large nuggets were formed by a process of chemical deposit. The speaker exhibited a large number of vials containing gold combined with its amalgamates, the result of many months' experiment, which illustrated the theory of chemical deposits.

A Brutal Husband's Sentimentality.

John Hutchinson whipped his wife habitually, and in many ways was the most inhuman of husbands; but when, after enduring his cruelties for years, she had him put into jail at Greensburg, Pa., he wrote to her as follows: "You have forsaken me forever, and I have nothing to live for any more. I loved you dearer than I did my own life. I have made preparations to leave this world. I want to be buried in the lot in the graveyard reserved for me, and at your death I want you to lay alongside of me." She thought this was a device to get released, but he was in earnest, and really committed suicide.

The Bicycle at the Bay.

From the San Jose Mercury.

Mr. Langstroth, head bookkeeper for the San Francisco Savings Union, rode from San Francisco to this city Sunday on a bicycle by the San Bruno road. The running time was six hours, and in addition to this three hours were consumed in stoppages. He says that it is claimed by some that the trip can be made in four hours, or twelve miles per hour; but he does not credit the statement. He rode the Columbia bicycle. The only bad road he encountered was in the vicinity of Santa Clara, where he was compelled to walk about a mile.

Shad In California Waters.

From the S. F. Bulletin.

The earnest work done by the Fish Commissioners in this State in endeavoring to propagate the shad is a success, and in a few years we shall find them as plenty in the waters of the Sacramento and its tributaries as in the Connecticut and Hudson. Several of those caught in the river near Sacramento last week weighed six pounds and a half, and measured twenty-two inches in length.

The Bicycle Race at Eureka.

Miss Baymer's 100 mile bicycle race against O'Brien, who was matched to walk 60 miles, was well attended Saturday evening, says the *Leader*, and terminated to the general satisfaction of all. Both contestants did admirably, as the following score will show:

Miss Baymer—100 miles—
Actual running time.....10:25
Off the track.....1:04
O'Brien—57½ miles—
Actual walking time.....10:44
Off the track.....1:25

Why He Did Not Lecture.

"Prof. Ferguson will not lecture here this evening, as advertised," said the chairman of a temperance meeting at Lincoln, Ill., "as he is unavoidably detained at Peoria." Being pressed for particulars, the chairman explained that the professor had been arrested for drunkenness, and sent to the workhouse for forty days.

PACIFIC COAST NEWS.

Near Pioche a number of Indians were recently found skinning some cattle which they had killed.

The Susanville and Taylorsville telegraph line has been sold to E. A. Weed of the Lassen *Advocate*.

There were snowshoe races at Sierra City last week. A man by the name of Cooper, of Eureka Mills, was the winner.

The Southern Pacific Railroad has been assessed by the California State Board of Equilization at $14,783 per mile; Central Pacific, $20,264.

A skating rink, with real ice, is talked of for Sacramento. The ice can be made in the hottest weather by a simple process.

The first case of strawberries that went from Los Angeles to San Francisco weighed 100 pounds, and the shipper received 97 cents a pound for them.

The Bodie *Standard* suggests that the Street Committee employ an experienced diver, with a diving bell, to explore the depths of the Main street pools.

At Stockton yesterday, Nelson McGuffick, a lad of 13, had his nose broken by a foul ball during the match between the Lone Stars and the Stockton base-ball clubs.

Martin Carroll was stabbed at Sierra City a few days since by a man named William Busch. The cause is said to be the refusal on the part of Carroll to give him liquor. The wound is not considered dangerous.

An old man named Burlison, living on Applegate creek, Josephine county, was thrown from a wagon on the 15th and instantly killed. The team ran away, and pitching him out on the road, broke his neck.

Last Friday evening a terrible and fatal accident occured in the Lincoln mine, Sutter Creek, Cal. A miner named George Clicinovich accidentally fell down the shaft from the 100-foot level, a distance of 400 feet, at which point he struck water which was about 300 feet deep.

A fire recently broke out in the woods near Vancouver and threatened to go into the settlers' slashings. The neighbors congregated, armed with shovels, and in a few hours had it under control. Some of the men say the shovel beats water to fight fire in the woods.

The *Inland Empire* of Eastern Oregon, says: Professor Gordan is coming up to solve the mystery attending the red-fish of the Wallowa lakes. He will have more amusement after that if he will go over to the Straits of Fuca and examine the viviparous eel of those waters.

There are few live cattle to be seen in Pleasant Valley, Humboldt county. The grasshoppers ate up nearly all the feed last year and most of the cattle died during the winter. This spring the frost has played the mischief with fruit blossoms. In Paradise valley the prospects for good crops were never better.

The Santa Cruz *Sentinel* says that in tunnel No. 2, the largest on the S. P. C. R. R., there is a gas jet that burns with twice the force of an ordinary burner, the gas being supplied from nature's great reservoir. The draft through the tunnel is of sufficient force to occasionally extinguish this flame, but on its extinguishment being observed it is relighted.

The Denver *Tribune* says that Cummins City, Colorado, is under a constant fever of excitement over rich discoveries. Ledges of quartz crop out on all the numerous foothills and spurs putting into the valley along the Big Laramie river, from Gillem and other mountains. There are claims being located and improved on every hand. Even the moonlight nights are utilized in locating claims by those who are coming late in the evening.

A FEARFUL ENCOUNTER.

A Montana Man's Terrible Adventure With a Bear.

From the Helena Herald.

May 6th, while Hannibal Roe was out with his gun on the mountains about four miles from Kisselpaugh's, in the Prickly Pear canyon, Montana, on turning a sharp point of rocks he was suddenly, and without any warning, prostrated by a huge she bear, which reached for him from the bushes, where she had two cubs. The first stroke was from a huge paw, which struck Roe on the top of the head, taking the scalp with it and drawing it down over his eyes. As he fell the bear clinched him, and in the death struggle they both tumbled over a precipice some fifteen feet, where the bear lacerated, bit and tore her victim into shreds, and would then and there have killed him outright but for the crying of the cubs, which called the mother off. Roe seeing the coast clear, and with one arm torn from its socket, blinded with his scalp hanging over his eyes and his back nearly broken, one ear off, and otherwise bitten, scratched and torn, got up and walked to the stage road, where he was found and taken to a shelter. He is not expected to live.

A Mountain Snake Into Its Hole In the Night.

The residents of San Luis Potosi, Mexico, heard a great noise in the night, and were so frightened that they remained in bed until morning. Then they found that a considerable mountain in the neighborhood had disappeared, and where it had stood was an enormously deep and wide hole.

Captivated by His Music.

At the termination of Anton Rubinstein's last concert in Moscow the patrician beauties of that city carried the platform by storm, and devoured the pianist's hands with fervent kisses, to his manifest embarrassment and confusion.

Fiery Splendor in Mexico.

From the Globe Democrat.

CITY OF MEXICO, May 5.—The Volcano of Colima, now in active eruption, is a grand and magnificent sight. The first symptoms of activity were manifested on Sunday. There were low rumbling and subterranean mutterings, and the mountain shook and trembled. The eruption at night is full of splendor and grandeur. Last night lurid flames shot up from the crater of the volcano, illuminating the darkness for miles around. Incandescent stones are also thrown up, together with showers of ashes, which darken the atmosphere in daytime. The fire, smoke, ashes, and stones are accompanied with dreadful subterranean thunderings and frightful and unearthly noises under the volcano, together with quakings of the earth. Inhabitants of villages and towns in the vicinity of the mountain are in a state of panic and wild terror. They are, indeed, in danger in case of a flow of lava.

JOTTINGS.

— Eureka Con. has declared a dividend of 50 cents.

— Haslund's street sprinkler has come into use again.

— Chatfield has a neat 4-room cottage for sale. See 50-cent ad.

— Goats did remarkably well about Eagle Lake last winter. Out of a band of over 1,000 only 15 were lost.

— The delinquent list of the Doan Gold and Silver mining company is published to-day. The day of sale is June 18.

— A flock of 350 spring lambs, belonging to Wheeler, were driven through town last evening on their way to his ranch.

— The lightning train was an hour and a half late this morning. No. 6 ran a pair of trucks off the track near Essex during the night. Hence the delay.

— The Methodist fair, to commence June 1, will probably be held in the Pavilion. The ladies think of hiring the building for that purpose.

—Budden will be kept busy taking the census during June, and accordingly gives notice that he will close his photograph gallery on the 29th instant.

—Peter Kung of Sacramento has arrived with a fine lot of flowering plants. They can be seen at Carlow & Philips' fruit store, and will be sold at private sale. The varieties are well adopted to this climate.

—There has been a perceptible melting of snow on Mt. Rose in the last two days. On Wednesday two small dark specks appeared near the summit. Those specks have now greatly increased and it is evident that quite a large surface of the mountain is exposed.

— The grasshopper smiled,
As he turned in his bed,
Disturbed in his sleep by the plough overhead,
And he said to himself, as he scratched his chin:
"When the harvest comes,
you can count me in."

— No special train could be obtained for excursionists to Carson this afternoon, and so a score of people who had arranged to attend the Twilight Club's dance at the capital decided to remain at home. Only three excursion tickets were sold to-day and those using them were obliged to take the noon train.

PIZEN SWITCH.

How the Place Came to Receive that Curious Name.

WARNER VALLEY, Or., May 13, '80.

Editor Gazette:—I saw in our paper an article about the origin of the name "Pizen Switch." You did not rightly guess concerning it. It was named by one James Hayes. He got on a terrible drunk there, and he said the whisky was poison. So he commenced to drink Vinegar Bitters, and read the advertisement about the Railroad from Intemperance to Ruin. This suggested to him the idea of calling the place "Pizen Switch." I know this to be the truth, for I have been a resident of Mason Valley, and was there when the Switch was named.

J. S. WHEELER, Jr.

The Longest Legal Document Yet Filed.

The statement on motion for a new trial in the case of Bunting and Harrison vs. the C. P. Railroad Company was filed to-day by the defendants. It is the most voluminous court document ever produced in Washoe county. It is comprised in nine volumes of manuscript, and when laid out they make a pile about a foot high. The statement includes a full short-hand report of the testimony in the late trial. Major Mann carried this mass of manuscript over the bridge to serve it on Judge Haydon, the attorney for the plaintiffs. He found it a heavy task. The Judge protested against receiving it all at once, taking the ground that a ream of statement at a time was all that the statute allowed to be served on any one man. The statement will be submitted for settlement to the District Court on June 4.

Denis Cooley Arrested for Having Two Pair of Breeches.

Denis Cooley is in disgrace again. The vigilant eye of Officer Ross observed at an early hour this morning that Denis was carrying a new pair of trousers on his arm. The fact that Denis had in his possession a new pair of trousers at all was in itself suspicious, and that he should be carrying one pair on his arm while wearing another was a matter for immediate investigation. Investigation showed that the suspicious garments which Denis carried were about five sizes too small for him. Ross considered that this established a strong presumption that they had been stolen by Denis. He accordingly arrested him and to-day Denis has been languishing in jail. Any one who lost a pair of breeches last night would do well to call at the court house. It is probable that Denis pulled them from some easily accessible clothesline.

How Things Look in Sierra Valley.

Dr. Pritchard of Loyalton writes to the Virginia *Chronicle* as follows: The snow still lies in this valley along the west side, but on the east side, and especially here at Loyalton, large fields of grain have already been sown. The ranchers at the head of the valley do not intend sowing much grain, as they fear the grasshoppers will come this year. The ranchers here do not fear them much. There are a few eggs here that are not hatched out, and plenty of hopper eggs in Long Valley to the eastward, but the pests are as likely to go to Reno as they are to come west into this valley, and it they give us the go-by this year we are not particular where they go.

Two Horse Thieves.

Sheriff Cash Thomas of Lander county arrived from Austin on the Pacific express last night, bringing with him two prisoners for the State Prison. Their names are Charles Watson and Henry Bodden, and they are condemned to four years' imprisonment for horse stealing. The men stole horses from Austin and were chased for three weeks by the sheriff and a deputy before their capture was effected. The thieves were arrested in Pharanagat, where the residents for a time entertained the idea of getting up an informal hanging, which would have relieved the Sheriff of any further trouble in the matter.

Their Height Above the Sea.

The Modoc *Independent* publishes the following table of altitudes, taken from government surveys:

Alturas	4663
Adin	4150
Goose Lake	4697
Drew's Valley	4953
Camp Harney	5760
Warner Valley	4497
Lakeview	4825

Camp Bidwell	4612
Susanville	4180

Installation of Officers.

At the regular meeting of Fidelity Lodge No. 2 I. O. G. T. last evening the following officers were installed by D. D. G. W. P., Bro. Geo. R. Hall, for the ensuing term.: W. C. T., F. P. Laycock; W. V. T., Mrs. G. Comstock; W. S., E. C. McClellan; W. A. S., Mollie Cossitt; W. F. S., Geo. E. Hall; W. T., Effie Loomis; W. I. G., Mrs. Mary Wager; W. O. G., B. M. Curtys; W. R. H. S., Flora Loomis; W. F. H. S., Mrs. Mary Mosher.

A Hebrew Cemetery.

The Hebrew Benevolent Society have purchased and fenced two acres of land for a cemetery. It adjoins the private burial ground of Mr. Sanders, commonly known as the Hillside cemetery. An avenue thirty feet wide has been laid out around the Society's ground. The location is good, and when the contemplated improvements shall have been made the Hebrew cemetery will be a delightful suburban retreat from the cares and sinfulness of the world.

Narrow Escape from Death.

Ross Jones and Mrs. Dickie did not dream of danger as a quiet pair of horses attached to the buggy in which they were seated trotted along toward town this afternoon. They had overlooked the fact that this is the season for house cleaning, so fraught with disaster to civilized humanity. It happened that, as they passed near the new State Prison walls a house where spring cleaning was in full blast, one of the horses entangled a foot in a spiral bed-spring which had rolled from the house into the road. The horse was seized with a fright such as a human being would experience under the belief that the devil had got him by the leg. His alarm was quickly communicated to his mate, and in ten seconds, the docile span was transformed into a pair of maddened animals, frenzied with terror, dashing along the road with the speed of the wind. Suddenly they swerved into a pile of rocks by the roadside. Both the occupants of the buggy were thrown out and the vehicle badly broken. Beyond a few trifling scratches, the horses were not injured. Mrs. Dickie received a few slight bruises, and Mr. Jones was injured in the back. They were both able to ride into town, however. They consider it providential that they escaped with their lives.

Items from the Truckee "Republican."

The mail carrier to Tahoe City informs us that the snow has settled at a remarkable rate the past two days on that route, and it is expected that the road can be opened by the first.

Our young nimrods are making it lively for the black birds. The Chinamen buy them at the rate of thirty cents a dozen.

Indian George and Dick killed eighteen deer near Alta this winter. If all Indians are as lucky, it may account for their not eating hog meat, and therefore solves the question that is agitating the correspondents of the Reno GAZETTE.

The Democratic County Convention was held at the court house in Nevada City last Saturday and the following gentlemen were chosen delegates: George W. Giffen, Michael Garver, N. C. Miller, G. S. Brown, Jas. Kitts, George D. McLean, R. Shoemaker, J. M. Lakenan and Martin Ford.

Fourth of July Picnic.

The Reform Club people are making preparations for a grand celebration picnic on the Fourth of July. There will be a barbecue, a flowing fountain of lemonade, an ice grotto, a snow man, base ball, horse races, fire works, torch light procession, brass band, dancing, target shooting, a clam bake, thousands of pretty girls and all other sorts of attractions. Such is about the substance of Judge Cossitt's outline of the projected picnic, as furnished to a reporter to-day. But it is intended in sober earnest by the Reform Club to get up a picnic on the Fourth, and to make as great a success as they possibly can. The subject will be discussed at the meeting this evening.

A Crazy Man Arrested.

A crazy man made his appearance in the Arcade saloon last evening and was taken in charge by Officer Ross, who lodged him in the county jail. The man talks rationally on some subjects but on others goes very far astray. He is possessed with an idea that somebody has been thrown down a mining shaft somewhere, and he is haunted by the spirit of the murdered man. Similar crazy notions are given out in his talk. The man gives his name as Kearns, says that he is married, has been working at Sutro, and just returned from San Francisco. He is about thirty-five or forty years old, has dark hair and eyes, and was tolerably well dressed. There seems to be nothing dangerous in his manner.

Replacing the Snow Sheds.

The Truckee *Republican* says: The most of the snow sheds between this point and Blue Canyon will be rebuilt or repaired this summer. They have done service so long that the timbers need replacing. The work this time, we understand, will be made stronger and more capable of resisting the heavy fall of snow than the present sheds. It is a big job and will require the outlay of a large sum, but it will give employment to a large force of men. It will require an immense amount of timber, and will help to make things generally lively here.

An Early Morning Bath in the River.

The sun had not risen yesterday morning when Matt Parriott and a friend essayed to cross the river in a boat, above the dam. They were going to fish on the opposite shore. Parrott's ornamental dog swam beside them in the water. The dog unfortunately tired of the exercise before the stream had been half crossed, and tried to climb in over the gunwale. The boat resented the intrusion by turning over, and the unhappy fishermen disappeared beneath the surface. They rose again, and after a deal of kicking, swimming, wading and swearing finally managed to reach the shore. They found the water "devilish cold."

An Eastern Girl Succumbs to the Fascinations of Reno.

The Modoc *Independent* is responsible for the following: A frisky old bachelor who lives above Willow Ranch commenced a correspondence with a girl living in the east a short time ago, and finally proposed to her that if she would come out to California he would marry her. She consented, and he remitted the money to her. She arrived in Reno and stopped over a few days to rest. While there she heard bad accounts of Modoc; was told that the elevated portion of the county was buried under snow, and the lowlands were deep under water; that flour and sugar there were none, and when the sun sets the natives go to bed on account of not having lights. The wretch who slandered(?) Modoc to her had an axe to grind. After thoroughly scaring her out of the idea of coming to Modoc county, he proposed marriage to her and was accepted forthwith; she deeming it more sensible to marry a young man and live in a pleasant home than to take such desperate chances out here. The Goose Lake bachelor is, of course, inconsolable, and declares he will never trust women more.

Stop That Cough

With a sample bottle of Kaiser's German Elixir. This is the most wonderful cough remedy ever introduced, being mild, yet positive in its action and soothing under all circumstances. Old and young may use it with perfect security. It is rich in the medicinal properties of tar, wild cherry and horehound. Ask your druggists, Messrs. Osburn & Shoemaker, about its merits. They sell large quantities of it and say it supercedes all others. The genuine bears the Prussian coat of arms and the facsimile signature of Dr. Kaiser on the wrapper and his name blown in every 75 cent bottle. Samples 25 cent. Large size 75 cents. feb2 d&w

CAMPAIGN OF 1880

Democrats of Nevada,

SUBSCRIBE FOR THE

VIRGINIA EVENING CHRONICLE

$5 For the Campaign. $5

NOTE THIS FACT.—To subscribers in Reno, Wadsworth, Winnemucca, Elko, Pioche, Austin, Aurora, Candelara, and all other towns in Nevada, the Virginia Chronicle brings all the Eastern Telegraphic News, Comstock Mining News, Virginia City items and State News, 12 to 24 hours ahead of any other newspaper.

The Chronicle is a thorough newspaper. It is a daily epitome of the world's history. While Democratic in its principles, it is the organ of no political organization. Nor is it the servant of any corporation. It advocates Democratic principles because it believes that the fundamental doctrines of that party form the life and essence of the American system of government, while those of the Republican party aim to the overthrow of popular government.

Terms of the Daily Chronicle:

One Month (postage paid)	$1 00
Six Months (postage paid)	5 00
One Year (postage paid)	8 00

The Daily will be sent for the remainder of the year 1880 to any address for FIVE DOLLARS. This will cover the period of the Presidential Campaign of 1880, which is certain to be the most important and exciting in the history of the country. Remit by Money Order, Registered Letter or Express.

DR. SPINNEY

NO. 11 KEARNEY STREET,

San Francisco, Cal.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the feet of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $3.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.

THE CARSON TIMES.

THE FIRST NUMBER OF THE CARson Times, a daily newspaper, will be issued on or about March 14th.

It will not be as large as its London namesake, but will contain the cream of all the news, foreign and domestic.

While bright and readable, it will not be racy with scandal and the affairs of private individuals.

A newspaper strictly, not a compendium of gossip or a vehicle for personalities.

Mailed to any address and distributed by carrier in Carson and Reno.

Fifteen Cents.....per Week.
Fifty Cents.....per Month.

The paper will arrive in Reno daily, (excepting Monday) at 11 A. M. Leave subscriptions with S. M. Jamison, agent, who will deliver to any part of the city. mar3
